Hi my name is Honey and I am 8 years old and I am a captain of green team along with Adam and Isabelle. In green team we keep the environment safe and make sure the planet is safe from litter and other litter objects. At home my mum bought lots of plants to make the air in our house healthier to breathe in. In our school we do a daily mile to get lots of exercise and to make us healthy. We also do den day which is were we build a den out side and do lots of thing in the den . We grow potatoes , beans , onions and tomatoes in are school garden. Another one of are green team activities to keep the environment safe was switch of fortnight witch is were we sometimes turn of the lights all day and learn with the sunshine as our light and we learn outside. In green team we litter pick to make our field and playground litter free . My favourite experience in green team is growing all the plants and doing the daily mile . In school we have also do a red nose day witch is were we dress in red nose clothes like red clothes and a red nose things to go on our nose and head. We raise lots of money during red nose day to children all over the world. We also have Pudsey day were a bear comes in and we raise money for the children in need and we also get wrist bands and clips from it. Us green team have a compost bin to put all the vegetables in the bin and it makes soil. One of the other things we do is pond dipping in our school pond.

We also have re-cycle boxes in every classroom.

Hello I am Alice. Are playground is nice and clean because we tidy it up. We checked if the lights are on when there is no one in there. We check if the girls lights are on and the boys if they are on when there is no one in there we put a sad red face if they are off we put a green happy face on so they don't do it again. We talked about if there is any rubbish in the sea that could make them sick or make them die . We also talked about walking close to the edge of the river because they could fall in. We also talked about remember to put your rubbish in the bin not on the floor just in cause animals trod on the rubbish and don't put it on animals. I enjoy being a green team member of green team.
