

English	Maths	
<ul style="list-style-type: none"> Remember to visit Bug Club and read a book online. Visit Purplemash for new writing activities in your 2Do's. Write a letter to your favourite book character Further learning opportunities can be found on the Oak National Academy website. https://www.thenational.academy/ Remember to read regularly. Lots of free online story books can also be found at https://home.oxfordowl.co.uk/books/free-ebooks/. First you will need to get an adult to register for free. Then you can then access lots of books for you to read. You can select by age or look for your colour book band. Creative Writing Idea: <p>Why not imagine what it was like to make an expedition to the Antarctic. Find out about the first explorers. Create a diary of their time there. Add in details of their trip and their thoughts and feelings. Was it a successful trip? What did they find out? You can create a poster, postcard, letter or diary of the time you spent there.</p>	<ul style="list-style-type: none"> Try the maths activities and games set on Purple Mash. Test your times table skills at TT Rockstars. Practise your multiplication and division using the activities in Purplemash. Other activities can be found on the Oak National Academy website. This week's activities are to do with capacity. Why not play with water!!! Hunt around the house to find some objects which you think will hold amounts of liquids. Have you got a measuring jug at home? Estimate how much a container will hold, then measure it. Which containers hold about a litre, half a litre, a quarter of a litre? Remember a litre is 1000 millilitres. Why not collect the containers together and place them in order of how much they hold of water (their capacity). Did you guess right? <p>Things to puzzle over and find out about: How much do you think your bath holds? How much water do you think there is in the Nile River? How much water do we have on this planet? Do any of the other planets in the universe have water? How much do you drink in a day? How much should you drink? How much of your body is made of water? Why should you drink water? What does it do for your body?</p> <p>You could put all the information you find into a leaflet or make a poster.</p>	
ICT	Home Learning Choice Grid Year 3 and 4	
	Week commencing 18 th May	You need to select two or three activities daily. Topic

- Purple Mash - you have some new 2do's!
- Education City. Don't forget to compete the Education City homework set first before anything else!
- Bug Club
- Remember to continue to develop your touch typing skills using the tools on Purple Mash. I've added more skills for you to try!

Why not try out some Maths and English activities from the Oak National Academy www.thenational.academy? Just select subject then your year group.

Feedback from parents has already been positive and children have been enjoying some of the activities, sharing them on Twitter.

Dear Owls,

Thank you Owls Class for your fantastic information texts, brilliant 2connect spidergrams, desert postcards and adaptation work, well done. I've even seen junk animals being made. I've really enjoyed reading your work. It's lovely to see your work by email or through Twitter.

I hope you all had wonderful V.E. Day celebrations. I had a street party on my drive. We hung union flags from my house.

On Saturday my youngest daughter, Lauren had her 18th birthday. Some of you may have had or will have your birthdays in lockdown. You can still enjoy yourselves on your birthdays by changing what you do. We had a lovely tea party in the back garden and had another street party (don't worry we kept our distances from our neighbours!)

I've been trying out some of the activities from the Elsa Wellbeing calendar with my family at home. It's really worth having a look at for some lovely ideas. The daughter of a friend of mine slept out in her tent at the weekend with her dad, toasted marshmallows and had a wonderful time! Have a look at some of the activities on the calendar.

Take care and hopefully I will see you soon,

Mrs E x

p.s. Mrs Jackson says hi!

Our topic this term is What a Wonderful World!

Why not find out about COLD CLIMATES ... bbbrrrrrrr!!!!

Where are the cold places in the world? Choose one place and find out about the temperatures, animals which might live there, plants? Do humans live there? If they do, how hard is their life? How do they find food? What do they use for housing? How do they keep warm?

You could create an information text for this using a blank template on Purplemash.

<http://www.sciencekids.co.nz/experiments.html>

This is a great website, full of science experiments that you could possibly try with your grownups at home using objects you may already have in your house. Making a rainbow is a fun experiment to try, although we might need that beautiful sun to come out! Which one could you try?

Why not look at the water activities on the sciencekids website so that you can link to your topic?

Experiments:

How long does it take for an ice cube to melt and then for the water to disappear (evaporate?)

Which items will float or sink? This is a great idea to do when you are in your bath!

Can you create a boat that will float with a person on board? What materials would you make it out of? Why would you use these materials?

MUSIC - Visit the following site to access a daily song and sing along!

www.outoftheark.co.uk/ootam-at-home

PE - Keep active by joining The Body Coach Joe Wicks on YouTube every morning for a thirty minute workout.

MINDFULNESS - Enjoy being active with Cosmic Kids which can also be found on YouTube. www.cosmickids.com

YOGA - Check out our Yoga teacher, Fiona's daily Yoga sessions - Asanas Bananas at 10am on Facebook everyday!

Why not have a look at this website for daily wellbeing activities? There are some lovely ideas on there in their free resources section. This is a link to their May Calendar.
