- Steve Smallman is really good at rhyming! Can you hear unusual ones like... **yeti** and **spaghetti** or **lollies** and **trolleys**
- Print and cut up the words on the next page. Use to play rhyming pairs.

Find out about elephants

Read all about elephant poo...

Elephants spend between 12 to 18 hours eating grass, plants and fruit every single day! All that eating means one thing - a lot of poo! Each elephant creates about one tonne of poo per week. It is good to put on the land to help grow crops.

Elephants galore!

Super-duper robot pooper-scooper!

At the end of the 'Poo in the Zoo' story, Bob buys a robot pooper-scooper to make his life easier! Look at the picture below carefully. Can you work out what it's made from?

Design your own pooper-scooper!

- I could see a spade, a bucket, a spring, some wheels and a grabber.
- What could you see?

- On a big piece of paper draw what your pooper-scooper design would look like.
- Add labels so it is clear what each part is.
- If you have the resources you could try following your design and making it with Lego or junk modelling. But don't forget to send me a photo of your design.
